Automatic single side lamination machine BP390A

Description :

BP390A auto single side Laminator machine is popular used for office and Graphic shop .based on stable and quality structure now it become good sales for overseas maket to handle A3,A4,A5,A6 paper size .

Technical data :

item	BP390A Lamination machine with auto feeding and auto cutting
Model Number	390A
Laminating width	350mm
Max laminating thickness	7mm
Laminating speed	0-5m /min
Type of paper	120-350gsm
Roller Diameter	110m
Roller Pressure	by handle
Power Supple	110/220
Power	1500W
Dimensions	1.22x0.79x1.28 m ³
Machine Weight	260kg

Advantages :

1. Auto feeding ,auto slitting or cutting after lamination
2. 110mm mirror steel roller,bigger pressure will make the lamination will bright and transparent
3. Frequency converter speed control.180W AC motor ,speed 0-5 m/min
4. Intelligent temperature control system with alarm function ,highly precise and easy to operate
5. Big pressure make it lamintor appearance better look
